Miniature —

HARDY

ROSES

Beauty - Novelty - Interest - Fun

IN A REAL CUTE FORM

These Miniature Roses are enjoying vastly increased popularity and we predict that as they become better known, they will become the pet of nearly every gardener. They have been popular with the more serious gardener for several years but the supply has not been large enough to supply everyone. Now with expanded propagating facilities, and the development of a very extensive selection of varieties, you'll want to be in the act too.

Their diminutive size attracts a great deal of attention wherever they are shown. It also adapts them ideally to indoor pot culture and they are most desirable for outdoor pot and window box culture. In the small outdoor garden they make a beautiful showing, while in the outdoor garden of any size they are ideal for small borders or specimen planting. They may be handled under the same conditions as the usual garden Hybrid Tea Roses and have proven themselves to be just as hardy. You won't want to pass these up this spring!

RED SHADES—

VARIETY	Description	Price per	Each	3
CENTENNIAL MISS: (pat. 1301)	Rose to wine red. A very desirable variety and color.	\$1.25	\$3.40	
DIAN: (pat. 1808)	Double pink-red, fragrant. Very bushy and free flowering. Perfect pot plant.	1.50	4.00

PINK CAMEO: (pat. 1451)	Rose pink buds and flowers. Everblooming. Good everywhere, 4 ft.	2.00	6.00	

QUALITY SEEDS

Rare, Novelty and New Varieties

Most Harrold's Pedigreed offerings in seeds are our originations, exclusive specialties, rare and hard to find varieties or the outstanding selections from the world's foremost specialists. You will find them exciting to grow and they will contribute much to your enjoyment. Because a catalogue must be compiled in advance of the sowing season and many of these items are scarce and limited in supply, we make these offers subject to availability and delivery under normal crop and planting procedure. It is best to order soon.

ALYSSUM - Hardy Perennial.

Price per Packet

Three exciting, improved varieties. Hardy as far north as Wisconsin. Makes wonderful, showy borders in May.

SAXATILE HYBRIDS: A fine new dwarf strain of rich golden yellow, about 8 inches tall \$.50

CASTLE PRIDE: A very fine trailing variety. Bright yellow and well adapted for banks or hanging rockeries50

ROCK GARDEN BOTANICAL SPECIES: A collection of rare forms that you will find of great interest and beauty 1.00

ACHIMENES - A very interesting Gesneriaceae.

These are a mixed color and type collection of great interest. Cultured same as Gloxinia. Relative easy culture 1.00

AQUILEGIA - Columbine.

Always popular and showy, these varieties are reselections of outstanding strains. They will be found most desirable

CRIMSON STAR: A bright crimson with white corolla and very long spurs. One of the very best35

LONGISSIMA: The exquisite light yellow self with extremely long spurs. One of the most desirable70

MRS. NICHOLLS: A real bright blue with white corolla and medium long spurs. Very showy50

MAC KANA GIANT HYBRIDS: Giant, long spurred flowers in a magnificent range of mixed colors.35

WHITE QUEEN: Beautiful long spurred pure white35

BELLIS SUPER ENORMA: English Daisy.

A new perennial group producing flowers 2½ to 3 inches across, all fully double. Once established these grow easily from year to year. Exquisite for borders.

ROSE BALL: A beautiful shade of carmine-rose50

SALMON BALL: Soft pinkish salmon. Striking50

WHITE BALL: A very double pure white50

SUPERB MIXTURE: The above three and other colors45

CALENDULA - Pot Marigold.

PACIFIC BEAUTY STRAIN: This is a very attractive new type of very easy culture with large, showy flowers. Quite hardy in the milder climates.

APRICOT BEAUTY: A very interesting 2 tone apricot35

CREAM BEAUTY: Attractive creamy-white35

CARNATION - Giant Flowered Garden types

Easily grown, quite hardy and producing a large quantity of showy, highly fragrant flowers.

ORANGE SHERBET: NEW NOVELTY of outstanding quality. Attractive bright orange. Flowers are large 1.00

CUT FLOWER MIXTURE: All shades in a fancy blend50

EVEN COSTLY SEEDS ARE INEXPENSIVE AND THE BEST ARE THE MOST ECONOMICAL FROM THE STANDPOINT OF POTENTIAL RESULTS.

COLEUS -

Price per Packet

A most desirable plant for indoor pots and outdoor summer bedding. The foliage is highly colored and the newer kind are most striking. Easily grown from seeds.

BELLEVUE: New Danish strain of outstanding brilliance. F1 hybrids come true from seeds in first generation. Greenhouse grown. Highly recommended 2.00

AMERICAN RAINBOW MIXTURE: This is a very fine blend by a foremost breeding specialist expressly for the American Florist trade. Brilliant colors and truly outstanding 2.00

EXHIBITION MIXED: Greenhouse grown, large leaved hybrids in a most varied range of dark shades 1.50

GLORY MIXTURE: Medium large leaves, brilliant light colors. Open cross seeds. A good standard mixture 1.00

LANCINITUS: Novelty. Bright colors with laced and whorled markings and lacinated leaf edges. Medium small 1.50

MACROPHILLUS: Very large leaves and a tall plant. Bright color range of medium tone 1.00

PYRENEES MIXTURE: The finest Italian strain of rich colors 1.50

REMBRANDT: An outstanding Swiss, greenhouse grown strain with large leaves in rich red and bronze shades 2.00

SMALL LEAVED MIXTURE: Plants short and compact with small leaves in a bright color range 1.00

COLEUS - New Separate Colors

This new group comes 80% or better true to type and color from seeds and are a vast improvement over older sorts.

They are of the large leaved types and colors are brilliant.

ALASKA: Green bordering a field of yellow-cream 1.50

SUTTER'S GOLD: Chartreuse gold flecked green 1.50

SUNSET: Showy bronzy orange shades 1.50

SUN LAKE: Fresh soft green and light salmon-pink 1.50

PINK LADY: Coral pink blending salmon. Tiny green edge 1.50

REDSKIN: Maroon shading to rose-carmine center, edged brnz. 1.50

FIRE DANCE: Flame red with green edge hairline 1.50

ROYAL VELVET: Blood red and carmine. Velvety undertones 1.50

CACTUS -

This is a really interesting blend of probably 50 or more types.

They are a lot of fun to grow and can be handled quite easily.

Once growing they require a minimum of attention 1.00

CINERARIA -

This plant has not been used for bedding and boxes as it deserves and the gardener who has a spot of partial shade will be well rewarded by its culture. It is most widely used as a pot plant for indoor and outside culture and it is a grand subject for that purpose. The huge flower heads literally have a hundred or more florets, all brilliantly colored. The blooms show to great effect against the large, rich green foliage.

GLORIOUS: The color range of this variety is varied and wide ranging from white to deep red and blue. Many of the flowers have white or gold centers 1.00

MULTIFLORA MIXED: This strain has equally large flower heads but the individual florets are not so large. The plant habit too is more compact 1.00

GERBERA - Transvaal Daisy

These two strains are the best of this plant available. They are of reasonable easy culture and very showy and colorful. They make a fine showing in the greenhouse or in mild climates they make a fine outdoor subject.

JAMESONI: Duplex Strain. Very brilliant colors and a full petaled flower. Sometimes called double 1.00

WESTWOOD GIANT HYBRIDS: Outstanding new strn. 18" high 1.25

CYCLAMEN -

Price per Packet

This is a blended mixture of both type and color which we blend to best meet the home situation and preference. Has some duplex, ruffled and double types 1.50

GENTIANA ACAULIS -

This is a beautiful rock garden perennial. Flowers are large, deep blue and freely produced on plants only about 6 inches high. Blooms, early spring. A sensation wherever shown 1.00

HIBISCUS MANIHOT VARIETIES MIXED -

While these are generally considered a tropical plant we find they easily live over winter here in the Siskiyou Mountains where we can usually look for a minimum of 10 to 12 above zero. These are very showy with some flowers 8 to 10 inches across. Plant ranges from 3½ to 5 feet high. Bloom period is from July through September50

IMPATIENS - Sultani Hybrids.

These newer types are most colorful and make a wonderful summer border or a fine house plant in winter for pots.

FINEST MIXTURE: All colors 1.00

LIATRIS GOBLIN -

An easily grown perennial with long, very showy, deep mauve spikes. The florets form a flower almost like a Cat-tail. This is a dwarf variety with plants about 3½ ft. high. Sometimes called Kansas Gayfeather. Truly a must 1.00

HARDY LUPINS -

HARROLD'S NEW F/2 OREGON HYBRIDS:

A giant flowered mixture in the widest possible color range. Flowers are in huge heads of spire form, well filled and lasting over a long season. Plants are compact and very hardy, once they become established. They do best when planted right in the beds where they are to bloom with seeding being done in early spring through mid-summer.

BLUE SHADES: Light sky blue through purple 1.00

CARMINE SHADES: Bright red through magenta 1.00

YELLOW SHADES: Soft canary to deep orange 1.00

WHITE SHADES: From cream to paper white 1.00

ROSE SHADES: Soft pink to deep rose 1.00

SUPERB MIXTURE: All the colors in this grand variety50

AFRICAN VIOLETS - Saintpaulia

Price per Packet

One of the most popular of house plants. Seeds may be planted at most any time of the year and plants can be brought into flower in 8 to 10 months. Seeds are fine and require good culture. They are usually available throughout the year. The real advantage in growing from seed is the new types and shades produced which may be propagated by cutting.

IONANTHA HYBRIDS: A fine group of dark blue shades 1.50

BLUE FAIRYTALE: A fast growing, free flowering type of rather uniform, bright purple-blue 2.00

HYBRID MIXTURE: From a top quality collection of named varieties. This one has the most new and unusual shades 3.00

CLIVIA -

A wonderful pot plant for house or greenhouse. They thrive in the atmosphere we humans find comfortable. Flowers are huge, orange-scarlet. As showy and desirable as a winter show plant as the Hybrid Amaryllis. These seeds are very scarce and not available at all times. Orders will therefore be shipped promptly in stock and season but should it be that stock is not immediately available we will backorder for the arrival of the next harvest lot received. Our packets carry 10 seeds 2.00

GEUM - A very showy perennial.

These are of easy culture and very hardy. Daisy like flowers 2 to 3 inches across.

LADY STRATHEDEN: Brilliant golden yellow35

MRS. BRADSHAW: Real showy scarlet35

PHLOX, DWARF TWINKLE STAR - All-American 1957

A most attractive novelty. Individual flowers are star shaped, each petal coming to a point. In some the point is in a contrasting color while others have an eye in the center. The flowers come in clusters on a fine dwarf plant in such profusion that the whole plant becomes a mound shaped mass of color. Easily grown as an annual from seeds. One of the colorful things you should not overlook50

PASSIFLORA COERULA - "Passion Flower".

A showy, fast growing vine with flowers 4 inches and larger across. White, blue and purple intermixed with a dash of yellow in the center. Flower followed by an egg-shaped yellow fruit. Grows rapidly as an annual but is not hardy. A good greenhouse subject 1.00

POINCIANA GILLIESI -

Easily grown outdoors in coastal California or other warm areas or in summer almost anywhere. These may also be cultured with much enjoyment and success in the greenhouse. They are sometimes referred to as "Bird of Paradise". A shrub with mimosa-like leaves, yellow flowers having long, brilliant red stamens 1.50

POPPY ORIENTAL -

Those huge perennial poppies that make such a grand show in spring and early summer. A packet of these will bring much color to your garden and much enjoyment as well.

PRINCESS VICTORIA LOUISE: Brilliant salmon shades75

EXHIBITION MIXTURE: All colors including some of the finest reds and scarlets available60

PRIMULA CHINENSIS - Chinese Primroses.

A valuable pot variety with large, showy flowers for indoor pot culture. These may be brought into bloom easily in winter and plantings made in March can be flowered for the following Christmas. Flowers are large, plant habit excellent and the color range is most varied and bright 1.00

PYRETHRUM - Hardy Perennial.

Easily grown and very showy in brilliant mixed colors. Will grow almost anywhere35

FUCHSIA SEEDS

SUPERLATIVE MIXTURE: From crosses of top, named show varieties. Many pastels. **PER PKT:** about 100 seeds \$2.00; 3 pkts. for \$5.00.

DOUBLE & SINGLE MIXED: From a choice collection of named parent plants in a full range of colors and types. **PER PKT:** about 100 seeds \$1.75; 3 pkts. for \$4.00.

**CULTURE BOOKLET
WITH EACH ORDER.**

Fuchsias are an interesting subject to grow from seed as many newer colors and types are often produced. Seed germinate slowly but rather easily and should bloom within the year. No plants to offer.

STREPTOCARPUS - Cape Primroses

Price per Packet

Flowers are large, fringed trumpets 4 to 5 inches across in a bright array of colors including red, pink, lilac and white. For pot plants sow April to Dec; for cut-flowers Oct. to March. Plants are stemless with broad basal leaves of luxuriant green. Easily cultured in the cool greenhouse with the same culture given Gloxinias.

ROSE TRIUMPH: Rich deep rose, yellow throat. Large.	2.00
ROSE ELF: Veined. Delicate shades of rose and deep red	2.00
TAHOE: The finest blue shades	2.00
REDWOODS: A very deep velvety red. Long flower season	2.00
WIESMOOR HYBRIDS: Mixture. Fast growing, many shades	1.75

SNAPDRAGONS - Rust Resistant Garden Giants

Quite readily grown, these are quite hardy. If established through one summer they will make a nice show of flowers the first year and then if given reasonable shelter or protection they winter out of doors, giving a more abundant flower production the second spring.

CRIMSON QUEEN: A really fiery scarlet	.35
BALLERINA: A rich deep rose	.40
REDSKIN: Brilliant orange-scarlet	.35
RED VELVET: Deep blood red, dark foliage	.35
ANTIQUE BRONZE: Orange-scarlet, copper tinge	.35
HARVEST GOLD: Real deep yellow	.35
PRINCESS: Snow white	.35
MOON GLOW: Attractive canary yellow	.35
GARDEN GIANTS MIXED: All the above in a blend	.25

SALVIA NOVELTIES-

These two rare novelties have attracted much attention when shown well grown. The plant form is much like that of the Salvia Splendense, medium class. The bloom, however, is the novel feature of this plant. They have colored leaves at the terminal top of each stem which seems to be almost a continuation of the foliage except they are brightly colored instead of the green of the leaves. Plants grow about 2½' high and require the same culture as common red Salvia.

PINK SUNDEA: Attractive rose-pink	1.00
OXFORD BLUE: Striking violet-blue	1.00

VIOLA HARROLD'S AZTEC CHIEF- Novelty.

Something new in Violas that is attracting much attention. Plants compact and of upright habit, producing masses of flowers over a very long season. Perfectly hardy anywhere. Color range is unique with a full range of pastel shades, all having golden centers, rayed with dark penciling

1.00

WALLFLOWER - Biennial.

The annual variety, for a time, practically killed the planting of this biennial group in the U.S. but they have never been replaced in Europe. The two types do not fill the same place so the American gardener is again turning to these more showy, hardy varieties again. These are fragrant and one of the earliest plants to bloom in spring.

AURORA: Large, bright chamois-rose	.50
CARMINE KING: Rosy carmine	.50
BACCHUS: About 20 inches, large flowers of pure wine-red ..	.50
COVENT GARDEN: Immense spikes of brilliant crimson	.50
GOLDEN BEDDER: Compact golden yellow	.50
GOLDEN STANDARD: Popular bright yellow	.50
HAMLET: Compact, bright golden orange	.50
ORANGE BEDDER: Short, 12 in., rich orange to apricot	.50
PRIMROSE MONARCH: Large primrose-yellow	.50
RUBY GEM: Intense ruby-red	.50
SCARLET EMPEROR: 18 in., bright orange-scarlet	.50
SPLENDID MIXTURE: A blend of the best colors	.50

On seeds we will fill no mailorder amounting to less than \$1.00 total
On tubers, bulbs or plants we make a service charge of 60¢ where the order for these amounts to \$4.00 or less and seeds ordered at the same time can not be counted in this \$4.00 minimum.
